

12L Protect+

Ultralight and compact, the 12L Protect+ is ideal for application in small facilities, those with space restrictions such as General Practices, Veterinary Surgeries and Dental Practices or where generated waste volumes are low. Manufactured by combining recycled plastics and weighing just 1.5Kg, it's compact size and light weight aide the versatility of the convenient 12L Protect+. It can be positioned on benchtops or wall brackets and is perfect for transportation on trolleys, such as Phlebotomy, Emergency and Medication trolleys, where required.

Product Information

Product Code

AS315-12 (Single-Use Sharps Container)

Material

Manufactured combining both reprocessed and recyclable materials

Nominal Capacity

10.2 Litres (Safe Recommended Usable Space)

Capacity

12.8 Litres (Maximum Container Capacity)

Weight

1.5 Kilograms

Dimension

W 365mm x H 315mm x D 198mm

Product Certification

AS 4031, ISO 23907

Product Treatment:

Antimicrobial Protection Technology
